OUR STANDARDS

Our trajectory over the years gives us the expertise and the ability to perform to the highest standards and expectations of our clients.

At Ebcon, We can trace our origins to humble beginnings in telecommunications and continuing with our philosophy of transparent and forthright relationships with our clients.

We operate and undertake works under an integrated management system that encompasses OHS&R, environmental and quality systems. This management system has been written to comply with the ISO9001 series and also incorporates government statutory requirements for environmental and OHS&R elements.

QUALITY

At Ebcon, We guarantee we will provide only the very best quality of work and services. Our operations are covered by our company management system, providing the foundation for our quality trained personnel and well-maintained equipment.

ENVIRONMENT

At Ebcon, We have appropriate environmental systems in place to ensure that all services and products are delivered within acceptable limits of regulation and legislation. We ensure that our clients are appropriately informed of the usage, services, cleaning and disposal procedures, systems appropriate for each material type and services.

HEALTH AND SAFETY SYSTEMS

At Ebcon, We guarantee our clients to provide OHS&R working conditions and provide all necessary protection to working personnel and the general public.
